

Assembly Instructions

Align the four Tabs on the Handle into the four Holes in the Base.

Place unit on a solid surface and push down in the middle of the Handle.

Once assembled, the Handle cannot be removed.

Repeat for other Harbinger Pushup Pro unit.

Warning

Before each use, visually inspect the device. Never use the device if it is not working properly.

Workouts

Go to HarbingerFitness.com to download your free workout charts. Please refer to your workout chart for a total body workout to strengthen and tone your upper body and core.

Follow the workout listed on the Workout Chart for each day of the week. Perform each movement for the indicated number of sets, taking a 30-60 second rest in between each set, before continuing on to the next exercise.

Care & Storage

Your Harbinger® Pushup Pro has been carefully designed to require minimum maintenance. To ensure this, we recommend that you do the following:

Wipe sweat, dust or other residue off the handle, stationary base and rotation base with a soft, clean cloth after each use.

Harbinger develops innovative fitness solutions that maximize muscle engagement and biomechanical efficiency. Our products use simple, natural movements and back-to-basics principles to enable anyone to unlock their potential. Visit HarbingerFitness.com to learn more.

Important Safety Information

⚠ WARNING

FAILURE TO READ AND FOLLOW THE SAFETY INSTRUCTIONS STATED IN THIS OWNER'S MANUAL AND ON THE WORKOUT CHART MAY RESULT IN SERIOUS INJURY OR DEATH.

1) Before EACH use, visually inspect the equipment. Never use this equipment if it is not working properly or if there are damaged or worn parts. Call our Customer Service Department with any questions.

2) Consult your physician before starting this or any other exercise program. Fitness training can result in serious or fatal injury. Risk of injury can be lessened when safe techniques and common sense are practiced. The Harbinger® Pushup Pro is designed to freely rotate 360°. Before beginning your first workout, become familiar with this rotation by performing the Knee Modification of the Regular Position. Your physician should assist you in determining the target heart rate zone appropriate for your age and physical condition. Certain exercise programs or types of equipment may not be appropriate for all people. This is especially important for people over the age of 35, pregnant women, or those with preexisting health problems or wrist, elbow, shoulder or other joint and muscle impairments. If you are taking medication that may affect your heart rate, a physician's advice is absolutely essential.

3) Start out slowly and progress sensibly. Even if you are an experienced exerciser, start with the easier modifications of the exercises and become familiar with all of the exercises before moving on to more advanced modifications.

4) Do not overexert yourself with this or any other exercise program. Listen to your body and respond to any reactions you may be having. You must learn to distinguish "good" pain, like fatigue, from "bad" pain, which hurts. If you experience any pain or tightness in your chest, an irregular heartbeat, dizziness, nausea, or shortness of breath, stop exercising at once and consult your physician immediately.

5) Warm up before any exercise program by doing 5 to 10 minutes of gentle aerobic exercise, such as walking, followed by stretching.

6) Use this equipment ONLY for the intended use as described by the manufacturer. DO NOT modify the equipment or use attachments not recommended by the manufacturer.

7) Have plenty of clearance space. It is important to keep children, pets, furniture and other objects out of the way when using your equipment. You should have a minimum of 3 feet of clearance space.

8) Wear appropriate clothing when exercising. Workout clothing should be comfortable and lightweight, and should allow freedom of movement. Wear comfortable athletic shoes made of good support with non-slip soles, such as running or aerobic shoes.

9) THIS EQUIPMENT IS NOT FOR USE BY CHILDREN. To prevent injuries, keep this and all fitness equipment out of the reach of children. Follow these simple rules:

- Keep children out of rooms where you have your exercise equipment.
- Store exercise equipment in a room that can be locked.
- Know exactly where your children are when you work out.
- If you have small children at home, don't wear headphones while you work out.
- Talk to your kids about the dangers of exercise equipment.

10) Breathe naturally, never holding your breath during an exercise. Avoid over-training, you should be able to carry on a conversation while exercising.

11) Handicapped or disabled people must have medical approval before using this equipment and should be under close supervision when using any exercise equipment.

12) ONLY one person at a time should use this equipment.

13) DO NOT store in direct sunlight or near direct heat sources.

14) DO NOT put hands, feet or any foreign objects on or near this equipment when in use by others. Use caution to not pinch fingers or hands in moving parts when setting up or using the equipment.

Go to HarbingerFitness.com or call 1-800-729-5954 for replacement label, user guide or questions.

Equipment Warning Label

IMPORTANT: See below for placement of this Warning Label on your equipment.

⚠ WARNING

Failure to read and follow the safety instructions stated in the User Guide may result in SERIOUS INJURY OR DEATH. KEEP CHILDREN AWAY. Do not use if you weigh over 300 lbs/136 kg. Replace this label if damaged, illegible or removed. Class HC. Go to our website: HarbingerFitness.com or call Customer Service: 1-800-729-5954 for replacement label, user guide or questions.
